
WRIGHT SAFETY
IT'S WORTH DOING
WRIGHT

THE WRIGHT WAY

The Wright brothers, Orville and Wilbur, changed the course of history with their groundbreaking invention of the first powered flight in 1903. Their journey was far from easy - marked by countless failures, relentless experimentation, and an unwavering belief in the impossible. Their determination and tenacity, continue to inspire generations to dream bigger and strive harder. At Wright® Safety Footwear, we carry forward their legacy of pushing limits. Like the Wright brothers, we believe in challenging the status quo and creating something extraordinary.

THE WRIGHT® WAY IS MORE THAN A TRIBUTE TO HISTORY - IT'S A COMMITMENT TO PUSHING LIMITS, SOLVING PROBLEMS, AND ENSURING YOU'RE EQUIPPED TO TACKLE WHATEVER LIES AHEAD.

ZERO METAL. NO LIMITS. JUST THE EDGE YOU NEED.

INDEX 1/3

Introducing **The Edge Collection** – built to **S3 standards** with **zero steel** components, delivering full protection and seamless **scanner-safe technology.** With **kevlar anti-penetration midsoles, certified ladder grip soles,** and our **integrated stability core** for midfoot control, The Edge Collection combines maximum protection with reduced weight for unmatched agility and all-day comfort.

Whether you're clearing security, covering ground or working under pressure, The Edge Collection gives you the confidence- and the edge - to perform without compromise.

Featured in all The Edge Collection styles.

THE EDGE SOLE

CERTIFIED LADDER GRIP HEEL
UNPARALLELED DURABILITY
SUPERIOR GRIP

The Edge sole defines resilience, built for those who take on the toughest challenges. Crafted with dual density polyurethane using Desma technology, it offers unparalleled durability, superior grip, and advanced safety features like a ladder grip heel and water dispersing cleats. This is industrial performance, perfected The Wright® Way.

WRIGHT-STEP INSOLE

poronXrd extreme impact protection

PORON® SHOCK ABSORPTION
ADAPTIVE-MOULDED MEMORY FOAM
FRESH-GUARD ANTIMICROBIAL

Experience all-day comfort with our Wright-Step insole, designed for superior support and performance. Featuring shock absorption technology and mouldable memory foam, it adapts to your foot for a custom fit. Crafted with lightweight, breathable Microban® antimicrobial fabric to keep your feet fresh and odour-free, it also features anti-static properties for added safety in various work environments.

THE ORIGINALS

Trusted for enduring protection. Defined by unwavering consistency in style, perfomance, and the durability you rely on. Chosen by those who know what works.

BUILT THE WRIGHT® WAY

Built for tough shifts, this range pairs the proven Original sole with a high-performance innersole designed for lasting comfort, support, and durability. With adaptive memory foam and an ergonomic structure, the innersole reduces fatigue throughout the day, while the anti-fungal lining keeps feet fresh.
Engineered for endurance – this is footwear that works as hard as you do.

ORIGINAL HERITAGE

ORIGINAL HERITAGE SOLE:

The Ergonomic Original dual-density polyurethane sole is engineered for support, stability, and long-wear comfort. Designed to reduce foot fatigue during extended shifts, it has a proven track record in demanding environments.

This tried-and-tested sole continues to deliver the comfort, durability, and performance that wearers rely on – day in and day out.

HIGH PERFORMANCE INNERSOLE

ENGINEERED INNER COMFORT

This High-Performance innersole is designed with unique moulded support to help prevent stress-related strain, while its advanced memory foam adapts to the foot for a custom fit over time. An anti-fungal lining enhances hygiene, and the 9–5 mm heel-to-toe drop is optimised to promote natural posture and reduce fatigue. Built for all-day wear, it offers the comfort and support today's work demands.

PERFORMANCE SNEAKERS. EVERY STEP HAS A PURPOSE.

Every Wright® sneaker is designed with intent – some are made to go the distance, others to move fast, grip hard, or breathe easy. Each style carries its own rhythm, shaped around specific environments and needs. This isn't just about footwear.

IT'S ABOUT THE RIGHT FIT FOR THE JOB – AND THE JOURNEY.

PU TEK 546 g

S3S

Metal-free toe cap
Kevlar Midsole for anti-penetration
ESD

RECOMMENDED USAGE

Optimised for

logistics, manufacturing, and **warehouse roles** on **rough concrete, pavers,** or **scuff-prone floors.** Lightweight with high abrasion resistance, ideal for medium to **high-wear environments.**

UPPER

PU Tek overlay

Ultra-lightweight with superior abrasion resistance

SOLE

Superior sole durability

Built for extended wear and exceptional slip resistance

Full-surface rubber grip sole
Exclusive Wright® Aerolite sole plus reinforced wrap-round
Featuring a honeycomb tread

SPRINTER 529 g

S3S

Metal-free toe cap
Kevlar Midsole for anti-penetration
ESD

RECOMMENDED USAGE

Optimised for

tile, epoxy-coated, and **coarse-finished surfaces** in active roles like **inspection, supervision,** and on-the-floor support. High-tensile knit upper resists abrasion and cuts, delivering protection, flexibility, and grip.

UPPER

High-tensile nylon mesh

Lightweight, breathable with increased abrasion and cut resistance

SOLE

Superior sole durability

Built for extended wear and exceptional slip resistance
